

PROFESSIONAL SUMMARY

I am a Computer Engineering professional with a strong background in Artificial Intelligence/Machine Learning, Python programming, web development, and database management. With a focus on leveraging my diverse skill set in a dynamic and innovative environment, I am committed to contributing to organizational success. Passionate about driving impactful solutions, I thrive in collaborative, growth-focused settings that prioritize continuous learning and adaptability. Dedicated to delivering excellence, I aim to make a meaningful and lasting impact in my career journey.

KEY EXPERTISE

Python Machine learning Computer vision Voice Technology Model Optimization Artificial Intelligence
ADAS Development RAG Vector Databases FastAPI Supabase LLM Fine-tuning Technical Mentorship
Adaptability creative problem solving

EDUCATION

Ajeenkya D Y Patil University - School of Engineering -ADYPUSOE

2020 - 2024

B.Tech. - Computer Engineering - Artificial Intelligence | CGPA: 8.25 / 10

St Paul Jr College, Nagpur

2020

12th | Maharashtra Sate Board of Secondary and Higher Secondary Education | Percentage: 64.62 / 100

JN Tata Parsi Girls's High School, Nagpur

2018

10th | Maharashtra State Board of Secondary and Higher Secondary Education Pune | Percentage: 75.60 / 100

PROFESSIONAL EXPERIENCE

Getmy Solutions | IT / Computers - Software

22 Apr, 2024 - Present

Software Developer Engineer(AI /ML Enginner)

Key Skills:

Python Machine Learning OpenCV Chatbot development Speech Recognition ADAS system Model Optimization
NLP GenAI Image Processing FastAPI API Handling RAG Vector Databases

Leading a small AI team, mentoring and guiding one team member while overseeing project development. Spearheaded the development of AI-based projects, including chatbot systems, ADAS features, and voice assistant solutions. Collaborated across teams to ensure smooth integration of AI solutions into hardware and mobile applications. Delivered projects on time with exceptional quality, showcasing innovation and problem-solving in resource-constrained environments.

INTERNSHIPS

InternPe

05 Jun, 2023 - 02 Jul, 2023

Intern

Key Skills: Javascript HTML Project Management Skills Problem Solving CSS Github

I learned HTML, CSS, and JavaScript while working on projects like a quiz app, length converter, and an e-commerce website. This experience honed my front-end development skills, taught me effective coding practices, and fostered teamwork and time management abilities. I'm now equipped and enthusiastic to apply my knowledge in future web development opportunities.

PROJECTS

Realtime Weather forecast Analyser

10 May, 2025 - 20 May, 2025

Team Size: 1

Key Skills: Python HTML CSS Javascript MCP GenAI FastAPI

A Realtime weather forecast analyzer which fetches weather details and forecasts. Using latest technology like MCP and other models .

Docu-AI

20 Jan, 2025 - 30 Jan, 2025

Team Size: 1

Key Skills: Python API Handling streamlit Gen AI

Docu-AI, a tool that allows you to upload, analyze, and interact with PDFs in real-time. Whether you need to summarize reports, extract key insights, or brainstorm ideas, Docu-AI makes working with documents smarter and more efficient.

ADAS (Lane Detection and Departure)

21 Aug, 2024 - 20 Sep, 2024

Team Size: 1

Key Skills: OpenCV

The project basically detects the lane while driving the Vehicle and gives the warning if the vehicle goes out Lane.

Offline speech to speech chatbot

01 Jun, 2024 - 30 Jul, 2024

Team Size: 1

Key Skills: Voice cloning Voice synthesis LLM Whisper Text-to-Speech Speech Recognition data feeding

I have created a Offline speech to speech chatbot which has various functionality like voice cloning, can answer according to the data feeding ,i have used LLM in the backend for adding the intelligence in the chatbot and made it run locally, used new technologies .

Visionary AI

15 Sep, 2023 - 04 May, 2024

Team Size: 3

Key Skills: Image Segmentation Machine learning LLM NLP

Implemented language model-based picture segmentation techniques to enhance accessibility for individuals with visual impairments. Synthesized recent advancements in computer vision and natural language processing to develop innovative solutions for comprehending visual content.

Movie Recommendation System

01 Jul, 2023 - 31 Jul, 2023

Team Size: 2

Key Skills: Machine Learning Python Data Analysis

Created a movie recommendation system with python using KNN Algorithm to suggest films based on user preferences and similar profiles.

PUBLICATIONS / RESEARCH / WHITE PAPERS

A Review of Image Segmentation with Language Models for Visual Impairments

25 Oct, 2024

Intelligent communication ,control and devices | Springer Natures | **Mentor:** Mr Raj Gaurav Mishra | **No. of Authors:** 4

Key Skills: Computer Vision LLM AI/ML Python Image processing

The field of picture segmentation using language models is thoroughly reviewed in this extensive paper, emphasising how it might be used to improve accessibility for the blind. This work explores the smooth merging of computer vision and language comprehension using cutting-edge methods and algorithms to offer a thorough and unique assessment of the developments in this area. It looks at picture segmentation technologies' problems and solutions, highlighting how they might completely change how people with visual impairments interact with the outside world. To enhance the quality of life for those who are visually impaired or visually poor.

ACHIEVEMENTS

- First Prize, Tech Expo: Recognized for outstanding performance and innovation in the project ABHIMANYU(An unmanned ground vehicle)
- Commendation for Outstanding Performance in NCC Camp: Recognized for exceptional dedication and exemplary performance during a prestigious NCC camp, showcasing the ability to thrive in challenging environments.

ASSESSMENTS / CERTIFICATIONS

Oracle Certified Foundations Associate

13 Sep, 2023

Key Skills: Oracle Database Database DBMS

Earned the prestigious Oracle Certified Foundations Associate certificate, validating proficiency in fundamental concepts and skills related to Oracle technologies. This certification demonstrates a basic foundation in Oracle products and serves as a testament to my commitment to professional development and expertise in the field of Oracle technologies.

Machine Learning for All

Key Skills: Machine Learning

I successfully completed the "Machine Learning for All" course, a comprehensive and beginner-friendly program that demystifies the world of machine learning. Through this course, I gained a basic understanding of machine learning concepts, algorithms, and their practical applications.

CO-CURRICULAR ACTIVITIES

- Class Representative, Class of 2023: Acted as a liaison between students and faculty, organized class events, and facilitated open communication within the class.

EXTRA CURRICULAR ACTIVITIES

- Volunteered and Organized events during College Tech activities.
- Volunteered and Organized Blood Donation Camps during School.

PERSONAL INTERESTS / HOBBIES

- Dancing
- Sketching
- Singing
